ANTI-VIBRATION COMPONENTS

Precision Engineered Quality

Innovative engineering and tight control allows us to guarantee consistent quality across the entire range

Extensive Application Coverage

Over 180 part numbers covering the most relevant applications; bolts included when necessary

Noise Reduction & Durability

Designed to reduce engine noise and vibration, increasing the longevity of the accessory drive

AFTERMARKET EXCELLENCE

Since 2009, We have specialised in OE and aftermarket components, with four decades of combined experience. We guarantee OE quality in all our products, offering a straightforward 12-month/12,000-mile warranty on our crankshaft pulleys. Our after-sales team are always ready to assist, ensuring peace of mind for our customers.
