GT3840001

OE: 1638159880

PRE-BUILT DV5 8mm Upgrade Kit

Applications: A range of select cars fitted with the 1.5 BlueHDI DV5 engine

Why you likely need the DV5 8mm upgrade kit?

The early PSA DV5 1.5 BlueHDI engines (2018-22) were originally fitted with a 7mm timing chain, which was prone to stretch and premature wear. In 2023, this was superseded by a redesigned 8mm timing chain, camshaft and carrier system that improved tensile strength, enhanced durability, and offered more resistance to fatigue.

OE Manufacturing for the Aftermarket

www.gtautomotiveparts.co.uk 01608 645 950

Upgraded camshaft sprockets utilising
our 25+ years of OE camshaft manufacturing
heritage
